---

## SUMMARY

Aspiring Frontend Developer skilled in building responsive web interfaces using HTML, CSS, JavaScript, and APIs. Experienced in designing dynamic UIs, consuming REST APIs, and developing real-world projects. Seeking a frontend internship to contribute in a collaborative team environment.

---

## PROJECTS

### Career Quiz Website | HTML, Tailwind CSS, JavaScript(OOP) – *In Progress*

- Built a career suggestion quiz with dynamic scoring and roadmap generation.
- Responsive UI, modular JS logic, and Tailwind styling.
- Adding roadmap PDF, user data save, and backend features.

Live Demo- <https://muhammadmuzammil-thedeveloper.github.io/CareerPath-AI/>

GitHub <https://github.com/MuhammadMuzammil-TheDeveloper/CareerPath-AI/>

### Dynamic Quiz App | HTML5, CSS3, JavaScript (ES6+), Open Trivia DB API

- Interactive quiz app with real-time questions from Open Trivia API.
- Supports 5 topics: Computer, Math, Science, General Knowledge, and History.
- Features: user name input, answer validation, score tracker, progress bar, and restart option.
- Clean, responsive UI designed for seamless user experience.

Live Demo <https://muhammadmuzammil-thedeveloper.github.io/Quiz-Application/>

GitHub <https://github.com/MuhammadMuzammil-TheDeveloper/Quiz-Application>

### Weather App | HTML5, CSS3, JavaScript (ES6+), OpenWeatherMap API

- Real-time weather app displaying temperature, humidity, and wind speed for any city.
- Fetches live data using OpenWeatherMap API with user input validation.
- Features: responsive UI, error handling, and minimalistic design.
- Built with custom branding and smooth layout for all screen sizes.

Live Demo <https://muhammadmuzammil-thedeveloper.github.io/Weather-App/>

GitHub <https://github.com/MuhammadMuzammil-TheDeveloper/Weather-App>

### Language Translator (Python GUI App) | Python, Tkinter, Googletrans — *In Progress*

- Multi-language text translator with a simple and responsive GUI.
- Built using Tkinter and Googletrans for real-time language translation.
- Features: dropdown menus for language selection, instant results, and input validation.
- Responsive layout with clean interface and sky-blue theme.
